

Here's what some of our parents & students are saying:

*The teaching staff at Pointe of Grace are truly incredible. Beyond their dance and choreography talents, their caring attitude and guidance have contributed to the development of my daughter into that of a confident young dancer. The directors at POG have found a unique balance which offers an atmosphere which demands the very best of their dancers while at the same time provides a caring and fun place to dance. POG has offered Emma the opportunity to really develop her creative self through so many of the dance disciplines; ballet, tap, jazz, step, and lyrical. Dancing at Pointe of Grace has had a significant role in developing our daughter into not only a graceful and talented dancer, but also a into confident and disciplined young lady.*

*As this was our first year in the dance world I wasn't quite sure what to expect and have to say that I was very impressed. I wanted to thank you both so much for welcoming Tyler into your program. Despite his late start, he thoroughly enjoys dancing and has become very passionate about it. You created a very welcoming atmosphere and allowed him opportunities that just increased his love of dance. I know that he hopes to try out and make the competitive program for next year and I sincerely hope he gets the opportunity to work with you both again. Thanks again for making Ty's first dance season a fantastic one.*
